

Lesson Plans for Expectations

BE SAFE

Definition and Critical Attributes:

To keep yourself and others from harm.

Examples:

Paying attention to surroundings
Being careful with objects
Watch for others

Non-Examples:

Running in hall
Throwing objects
Pushing/Shoving

Activities to enhance concept development:

1. Have students continue to list more examples and non-examples.
2. Have students choose an example to role-play for the class. The class must decide which example was performed. (**Students should NEVER role play the wrong way.**)
3. Students can also present examples/non-examples in written or picture form.
4. Assign topics for journal entries related to the concept of **safety**.
5. Brainstorm other ways to be safe at school.

Activities to check for understanding:

Observe and identify proper safety rules.

Activities to extend concept development:

Create your own picture safety poster
