Total Hours:					

ECNC staff initials: _____ Date: _____

Students in the Early College Newaygo County program will need to complete one of the following community service or career exploration options in order to complete the program with his or her MEMCA Technical Certificate:

- **100 hours** of community service
- **40 hours** of career exploration
- **70 hours** of combined career exploration and community service

Career Exploration is demonstrated through any process or project that allows a student insight and/or experience into a career interest or pathway. Career exploration may include but is not limited to an internship opportunity, job shadowing, career cruising, activities of career exploration in cohort meetings, and assignments for CSS courses that require a student to research career pathways.	Community Service is demonstrated through volunteering to assist others in a community without receiving compensation. For purposes of the ECNC program, we ask that the community service is not done for a relative/family member of the individual volunteering. Community service hours counted from high school activities can be used toward the ECNC program's hour requirements.
