

## District Systems Review (DSR) and Your District's Improvement Plan Making Connections Worksheet

After completing the *District Systems Review* and identifying priorities, the next step is to connect your Indicator data to your District Improvement Plan (DIP). To do this, you'll need to review your existing DIP goals and measurable objectives.

Materials you will need:

- *District Improvement Plan goals, objectives, strategies and activities*
- *List of prioritized Indicators from District Systems Review*
- *PDF report generated by ASSIST (ratings selected on your District Systems Review)*
- *Discussion Recording Forms from District Systems Review process for your prioritized Indicators*

1. First, record 3-5 prioritized Indicators from your *District Systems Review* in the first two columns of the table below. Next, review your existing District Improvement Plan goals and measurable objectives. Do your identified Indicators relate to an existing goal or goals? Record the information in the table below.

Priority #	Strand	Indicator	What goal(s) from your DIP is this Indicator related to?	What type of goal is it? (Content or Organizational Goal?)	What <u>objectives</u> is the Indicator related to?	What <u>strategies</u> is the Indicator related to?	What <u>activities</u> is the Indicator related to?
<b>1</b>				<input type="checkbox"/> Content Goal <input type="checkbox"/> Organizational Goal			
<b>2</b>				<input type="checkbox"/> Content Goal <input type="checkbox"/> Organizational Goal			
<b>3</b>				<input type="checkbox"/> Content Goal <input type="checkbox"/> Organizational Goal			
<b>4</b>				<input type="checkbox"/> Content Goal <input type="checkbox"/> Organizational Goal			
<b>5</b>				<input type="checkbox"/> Content Goal <input type="checkbox"/> Organizational Goal			

Work through the following questions for each activity identified in the table on page 1 of the worksheet. (Make additional copies of this page, if needed.)

<b>Strategy and Activity:</b>			
	<p><b>In what ways would the <u>fidelity/implementation</u> of the Strategies and Activities be improved if the related Indicators were fully implemented and sustained?</b></p> <ul style="list-style-type: none"> <li>To be implemented with fidelity, Strategies should be supported by sufficient Activities to ensure <i>Readiness, Implementation, Monitoring, and Evaluating.</i></li> </ul>	<p><b>What might need to be addressed within the Indicators for that to happen?</b></p> <ul style="list-style-type: none"> <li>Think about what it would look like if these Indicators were fully implemented and sustained.</li> <li>Review the specific criteria for the Indicators your district identified as challenges. Use the PDF report generated by ASSIST for this purpose.</li> </ul>	<p><b>What are some specific steps your district could take?</b></p> <ul style="list-style-type: none"> <li>When you went through the <i>District Systems Review</i> process, you may have recorded notes on the <i>Discussion Recording Form</i> about possible action steps to address the Indicator.</li> </ul>
